SKILLS

- Good interpersonal and communication
- Ability in planning and co-ordination
- Highly adaptive and flexible
- Continual improvement
- Customer Oriented
- A productive team player
- Problem analysis and problem solving
- Positive attitude and open mind
- **Soft skill** : MS Office, Procreate, Basic Power BI

LANGUAGE

- **English** : Fluent in communication, Intermediate writing and reading.
- **Thai** : Native Speaker

OTHERS/TRAINING

Others :

- May 2018 – International Senior Project Conference
- Apr 2018 – The winner of Project day 2018 “Development of Photocatalyst - coated Plastic Boxes for Prolonging Storage life of Fruits”

Training :

- ISO 9001:2015 Requirements & Implementation
- IATF 16949:2016 Requirements & Implementation
- Statistical Process Control (SPC)
- Problem Solving Techniques
- FTA (Fault Tree Analysis)
- Engineering Drawing Reading

EXPERIENCE

OCT 2020 – Present Yamaha Motor Asian Center Co., Ltd.

Department : Quality Control
Position : Senior Officer

Responsibility :

1. Provided quality support to Yamaha group customers and suppliers across Vietnam, Indonesia, France, Italy, India, Colombia, the United States, and Thailand.
2. Managed customer claims, conducted root cause analysis, and issued corrective and preventive action reports, including reimbursement coordination.
3. Monitored supplier improvement actions and controlled 4M (Man, Machine, Material, Method) change management.
4. Ensured compliance with customer quality requirements and maintained supplier quality documentation.
5. Planned and executed continuous improvement activities, supplier audits, and performance evaluations.
6. Oversaw supplier readiness for production transfers and managed related quality documentation.
7. Prepared data analysis, summary reports, and KPI activities to support team performance and goal achievement.

Achievements :

1. Improved supplier quality and reduced claims via systematic audits and problem-solving.
2. Plating Process Auditor (Inspector Level 3).
3. Strengthened cross-country supplier coordination within Yamaha network.
4. Supported overseas COP audits (Indonesia, Vietnam).

JUL 2018 – OCT 2020 Mitsubishi Turbocharger Asia Co., Ltd.

Department : Quality Assurance Section (QA customer)
Position : Engineer (Warranty & Service)

Responsibility :

1. Investigated customer warranty claims using visual, dimensional, and chemical analysis (SEM/EDS) to determine root causes and prepare technical reports.
2. Prepared and managed warranty charge and rejection cost documentation.
3. Led cross-functional analysis teams to resolve customer quality issues.
4. Implemented corrective actions to reduce warranty costs and improve product reliability.
5. Conducted on-site investigations at customer plants and dealerships for critical warranty cases.
6. Supported new model evaluations and provided technical feedback for quality improvement.

Achievements & Projects :

1. Improved part traceability and workflow efficiency through BPI initiatives
2. Reduced warranty costs by resolving product noise issues
3. Saved THB 700,000 (FY2019) via Kaizen warranty inspection checklist

EDUCATION

KingMongkut's University of Technology Thonburi, Bangkok

2014 - 2018

Bachelor of Engineering in Materials Engineering
GPAX : 3.25 (second-class honors)

Wisutikasattree School

2011 - 2013

High school certificate
GPAX : 3.67

HOBBIES

Pet Lover, Music and Dance Lover
